AMENDED GUIDELINES FOR CERTIFICATION OF COMPETENCY PUBLISHED

The *Guidelines for Certification of Competency* were amended in November 2006 (as outlined in the Information Alert - [Amendment of the Guidelines for Certification of Competency 4 December 2006](#)) to allow unaccredited railway operators to issue certificates of competency and to reflect the new terminology for the certification requirements for competency assessors.

Additional changes to the Guidelines have since been made to remove references now redundant as a result of the November 2006 amendments, to update other information that was no longer current, and to make the document more user-friendly.

A detailed [summary of the changes](#) is attached and the revised Guidelines can be viewed at www.transportregulator.nsw.gov.au/rules/documents/Guidelines_Compentency_2007.pdf Operators are encouraged to read both documents.

If you require further information, please contact Colleen Kelly, Project Manager, Safety Training and Competency, Regulatory Policy Unit, on (02) 8263 7207.
